EST. 2002

## WE ARE ZOOMBO

We specialize in stainless steel products with advanced technology, including cookware, pressure cookers, kettles, and Pour Over Kettle

## COOKWARE BOTTOM TECHNOLOGY

- 1 Impact Bonded Base
- 2 Brazing bottom
- 3 Commercial capsule Base
- 4 5-ply Copper Bonded Base
- 5 Tri-ply clad
- 6 Iron Pad Base

## COOKWARE SURFACE TECHNOLOGY

- 1 Matte Color Coating Process**  
This coating exhibits excellent resistance to high temperature and is capable of withstanding a boil-dry test up to 10 minutes. Additionally, the coating protects the pot from oxidative erosion, ensuring durability.
- 2 Ceramic color coating process**  
Our pots feature a water-soluble ceramic paint that is both safe and non-toxic. This ultra-glossy paint is highly resistant to high temperature and aging, which protects the pot from oxidation and ensures its durability.
- 3 Mirror polishing process**  
Brightness is the effect achieved by a series of operations such as polishing on the surface of the pot. It has an effect of improving the gloss of the surface of the pot, making the pot look better and higher.
- 4 Satin Finish process**  
Matt is the surface of the pot has a frosted effect. The brightness is not as high as that of bright lights, and you will not feel strong light stimulation.

# NOVA PRESSURE COOKER

easy 'Lift-Off' lid

18cm-3L 22cm-4L / 5L / 6L / 7L / 8L

- Stainless steel body with Impact bonded 3.50mm Induction base
- 100KPA high pressure make cooking more efficient and great energy saving
- Multiple security protection design based on safety firstly to protect your family during cooking
- Suitable for all types of stoves, including induction

**Triple Safety System**  
float valve, safety valve, and pressure-limiting valve for reliable cooking

**Patented Lift-off Lid**  
opens with a single pull, no twisting needed

**Safety-Valve**  
When the pressure comes to high-reliable device enable to release

**Interchangeable Lids**  
switch between high- and low-pressure cooking for any recipe

**Premium Finishes**  
choose Matte Coating, INOX Mirror Polished, or Glossy Ceramic

**Float valve**  
Safety locks effectively prevent getting injury if mistakenly operation

**Pull and lift instantly**  
execute in one fluid motion, no spinning needed for this

**Interchangeable**  
Versatility & Multi-Functionality-Switch between high and low pressure cooking with interchangeable lids, adapting to different recipes and cooking needs

Matte coating    INOX mirror polished  
Glossy Ceramic coating    INOX mirror polished

# LOW PRESSURE COOKER

**Multi color selection**

**High Temp. Heat**

**100% STAINLESS STEEL**

**WOOD GRAIN**

24cm-5QT / 24cm-6QT / 24cm-8QT

- SS body with 3-ply or 5-ply induction heater base
- Low pressure allow us to open lid and add foods any time safety during cooking
- Suitable for all stoves, including induction

**Liveable pot cover**  
self-standing lid design - rotate 90 degrees to open the lid

# COLORFUL COOK ESSENTIAL SERIES

**Multi color selection**

**High Temp. Heat**

**100% STAINLESS STEEL**

**WOOD GRAIN**

- Glossy imitation ceramics coating on body outside has high temperature resistance
- Ergonomic design valve ensures easy operation
- Aluminum alloy automatic air vent to ensures a safe cooking
- Safety self-relieving window design releases pressure quickly when over-pressured
